Title: **Migration Flows in the Wake of the 2004 EU Enlargement: A Case Study of the UK and Poland**

Author: **Splinter M. Knight**

Supervisor: **prof. PhDr. Zuzana Lehmannová, CSc.**

Opponent: **Ing. Jan Martin Rolenc**

	Criteria	Classification level
1.	Achievement of the aims of the thesis	1
2.	Logical structure of the thesis	1
3.	Work with literature, citations	1
4.	Adequacy of used methods	2
5.	Depth of analysis with regard to the topic	2
6.	Individual approach to writing	1
7.	Formal arrangement of the thesis	1
8.	Language and stylistic arrangement of the thesis	1

Comments on and questions to the thesis:

Author in his master's thesis demonstrated the ability of theoretical thinking as well as the ability to apply theoretical approaches into research of concrete problems of international practice. He also demonstrated ability to analyze results of scientific researches (both theoretical and applied) and to use them in elaboration of his own theme. Paper deals with very actual global problem, that needs the interdisciplinary approach. Topic is reflected from the perspective of economy especially, the perspective of international relations discipline however is not elaborated. Text is well structured, but I would recommend to give reasons for both logical structure and approach to the problem more in detail. Questions: 1) Explain more deeply the possibilities of world systems theory and its methodology in reflection of migration. 2) Explain the international political context of migration in UK and Poland.

Conclusion: I recommend the thesis for defence.

Suggested classification: **1**
