

Master's Thesis Evaluation by the Opponent

Title of the Master's Thesis:

Logistic Solutions for School Milk Distribution in Hungary

Author of the Master's Thesis:

Gabriela Bomberova

Goals of the Master's Thesis:

The goal of the Thesis is to analyze improved solutions for milk distribution to schools in Hungary.

EVALUATION OF THE MASTERS' THESIS	
Criteria (each max 10 points)	Points awarded
1. The goals of the thesis are evident and accomplished	8
2. Demands on the knowledge	10
3. Adequacy and the way of the methods used	9
4. Depth and relevance of the analysis in relation to goals	9
5. Making use of literature/other resources, citing	9
6. The thesis is a well-organised logical whole	9
7. Linguistic and terminological level	9
8. Formal layout and formal requirements, extent	9
9. Originality, i.e. it is produced by the student	10
10. Practical/theoretical relevance/applicability	9
Total score in points (max 100)	91
Final grading	Excellent (1)

Overall evaluation, additional questions or comments:

This Thesis is very well written and demonstrates student's capability of solving real business problems. The positive point of this Thesis is a very complex analysis of a real problem with methods description in the beginning. The negative points could be found in the Thesis introduction/conclusion. I'd propose student more clearly defines project goals in the introduction and project outcomes with the proposed solution description in the conclusion.

Additional questions: Why did British Cool Milk Group decide to undertake the project in Hungary and not in other European country? Given specifics of milk and transportation time, did you take into account any special variation of Ford Transit or a standard model? What are the main differences between rent and operational leasing?

The name of the opponent:

Ing. Marek Vinš, Ph.D.

The employer of the opponent:

University of Economics in Prague

I honestly declare that I am not in any allied relationship with the author of this Master's Thesis.
