Comments and Questions:

The topic is important and not so developed in academic environment. The author was able to formulate the goal, to structure the text well, to develop the theoretical Framework that was used for analysis. The sources are adequate for such a work. I miss any definition of the concept of public management, that is part of the title of his thesis. I propose the grade 2, in case of a excellent defense grade 1. Questions: 1) Explain the concept "public management". 2) What is the relation between internal tradition, culture and INGOs activities. Can human rights be imposed to the societies (i.e. position of women)?

Conclusion: The Master Thesis is recommended for the defence.

Suggested Grade: **2**
