6. Questions and remarks to the defense:
1. According to your knowledge and experience received during this thesis completion do you think that current political decisions and activities are sufficient (will be successful) for the decease of the unemployment in Romania?
2. You stated that the analysis of the effectiveness of Cohesion Policy and a hypothetical correlation with unemployment rate is strictly restricted by the availability of data; therefore the further analysis can be completed in 2016. Can you estimate how the complete data would influence the current results?

Proposed grade: 2 – very good
