9. Originality, i.e. it is produced by the student	8
10. Practical/theoretical relevance/applicability	8
Total score in points (max 100)	86
Final grading	velmi dobře (2)

Overall evaluation (cca 150 words):

A well structured thesis which meets the requirements of a very good thesis. The goals have been presented clearly and the cited works have been selected appropriately. The theoretical part is elaborated thoroughly and is based on relevant literature. Nevertheless the analysis of the team stays more on descriptive level and recommendations which are based on the analysis could have been more specific. The thesis uses appropriate language, and satisfactory attention has also been paid to the overall appearance of the thesis. Questions for the defence of diploma thesis: Do you think that the problems you revealed are similar in other multinational companies as well? Can you see any specifics related to the pharmaceutical field?
