7. Linguistic and terminological level	9
8. Formal layout and requirements, extent	10
9. Originality, i.e. it is produced by the student	9
10. Practical/theoretical relevance/applicability	10
Total score in points (max 100)	95
Final grading	Excellent (1)

Overall evaluation and questions to be answered in the course of the defense:

The master thesis is well organized and structured. The hypotheses are clearly stated at the beginning and proved by various methods and sources at the end. The literature basis is adequate and supports the practical part of the thesis. The practical part has a significant contribution to the given department and the company as a whole.

Questions for defense:

1. What risks can you see in the implementation and maintenance of standards in the LECMM department?
2. How is the standard project related to the other Lean initiatives already in place in the LECMM department?
3. What was the methodology used for finding the best practices in processes in the LECMM team?

Name of the Master's thesis opponent:

Rossella Colantuoni

Occupation of the Master's thesis opponent:

Project Manager, Materials Management, LEC, Hilti Deutschland AG

I honestly declare that I am not in any allied relationship with the author of this Master's thesis.
