## Comments and Questions:

This is an excellent dissertation. Z.Hlinkova has performed new empirical research on the statistical characteristics and the causes of inflation differentials in the Eurozone. The results are well presented and situated within the existing literature. The argumentation is clear and to the point. The text is in general well written. Supervisor's cooperation: dr. Andre Van Poeck, University of Antwerpen, Belgium

**Conclusion: The Master Thesis is recommended for the defence.**
