MEMOIRE

Master 2

(Année universitaire 2018/2019)

Présenté et soutenu par Elodie DUPLESSIS

Lundi 23 septembre 2019 à 15h00 - Salle 121

Université d'accueil :
Diplôme Master 2 postulé : Master 2 Management et Commerce International - Parcours

Titre du mémoire : Comment une gestion optimale de supplychain permet de mitiger les risques de pénurie des ressources ?

Commentaires sur le mémoire : Good work. Elodie produced a serious thesis, well documented. The literature review is interesting but could have been richer by adopting a more critical perspective while presenting the models & concepts. The remarks also applies to the case study conducted: don't hesitate to go further and to be more specific in your recommendations.
Note/20 : ~~14~~ 14,5

Commentaires sur la soutenance : Very good presentation: dynamic, professional with a lot of added-value. The recommendations were relevant, specific and detailed. Good answers to the questions asked. The presentation added a lot of value ~~to~~ to the document.
Note/20 : 17

MEMBRES DU JURY	
Membre du jury : **Madame Noémie DOMINGUEZ**	Membre du jury : SOLVAY.
