| EVALUATION OF THE BACHELOR'S THESIS                             |                    |
|---|--------------------|
| Criteria (each max 10 points)                                   | Points awarded     |
| 1. The goals of the thesis are evident and accomplished         | 9                  |
| 2. Demands on the acquisition of additional knowledge or skills | 8                  |
| 3. Adequacy and the way of the methods used                     | 9                  |
| 4. Depth and relevance of the analysis in relation to goals     | 9                  |
| 5. Making use of literature/other resources, citing             | 10                 |
| 6. The thesis is a well-organised logical whole                 | 10                 |
| 7. Linguistic and terminological level                          | 10                 |
| 8. Formal layout and requirements, extent                       | 10                 |
| 9. Originality, i.e. it is produced by the student              | 8                  |
| 10. Practical/theoretical relevance/applicability               | 8                  |
| <b>Total score in points (max 100)</b>                          | <b>91</b>          |
| <b>Final grading</b>  | <b>výborně (1)</b> |

**Overall evaluation (cca 150 words):**

Bachelor's thesis aim to determine the concept of Industry 4.0 and its most important driving factors, namely technologies and human capital is clear and realizable. The author carries out his own research to analyze the readiness for industry 4.0 in the case of DBS Bank Singapore. The case study itself is preceded by a consistent analysis of the current state of knowledge. The author works with relevant resources. The theoretical study is an informative, well-processed work. The case study is created on the basis of several analyzes that sufficiently explain and evaluate the state of the monitored corporation. Overall, the thesis is well prepared and is beneficial. The thesis is eligible for defense.
